ABOUT ME

My goal is to develop in the world of information technology and contribute my skills to meet the required needs. I am proactive, responsible, and efficient, and I learn quickly.

EXPERIENCE

Frontend Developer

IT ROCK
August 2023 - Today

- Responsible for the development of landing and backoffice websites using technologies such as React, Next.js, and Angular.
- Manage my tasks using Jira, where I log hours worked and keep the status of my activities up to date.
- Agile methodologies (SCRUM).

QA Tester

IT ROCK
March - August 2023

- User interface, functionality, usability, and application performance.
- Validate APIs, databases, and server logic to ensure data integrity, security, and performance.
- Maintain complete documentation and create test cases.
